HOVER OVER A BUILDING TO EXPLORE THE CITY

Warehouses

Like most businesses in Cityville, when you construct a warehouse you can choose to either let it run autonomously or manage it yourself.

If you choose to manage it yourself then you can customise the layout by placing the loading docks, shelving, packing tables, water coolers, and more. Reinvest your profits to expand or update your warehouse with cranes and forklifts, hire and fire employees, assign various warehouse tasks, manage payroll and award bonuses.

Command a fleet of goods vehicles to create a network of logistics across land, sea and air. Create a successful business from the lead game artist Andra Steinbach.
